COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

United States Patent and Trademark Office  
P.O. Box 1450  
Arlington, VA 22202

Dear Sir:

In response to the Examiner's statement of reasons for allowance, which statement was made in the Notice of Allowability mailed on July 23, 2004, Applicant makes the following comments:

Applicant respectfully objects to the Examiner's statement to the extent that he has paraphrased independent Claim 50 when characterizing the allowable subject matter. Although Claim 50 may cover the subject matter recited by the Examiner in his reasons for allowance, Applicant emphasizes that the scope of Claim 50 is determined by its terms and not the Examiner's characterization thereof. As allowed, Claim 50 recites:

50. A retractable vehicle step, comprising:  
a step member having a stepping deck and a support bracket portion extending inboard from said stepping deck;  
a first support arm; and  
a second support arm;  
said first support arm and said second support arm connectable with respect to an underside of a vehicle so as to be pivotable about a first pivot axis and a second pivot axis, respectively;

Appl. No. : 10/689,254  
Filed : October 20, 2003

said first support arm and said second support arm connected to said step member so that said first support arm and said second support arm are pivotable with respect to said step member about a third pivot axis and a fourth pivot axis, respectively, said fourth pivot axis located inboard from said third pivot axis;

said first support arm and said second support arm allowing said step member to move between a retracted position and a deployed position downward and outboard from said retracted position;

at least one of said first support arm and said second support arm extending downward and outboard from said first and second pivot axes, respectively, when said step member is in said deployed position;

wherein said stepping deck is substantially wider than said support bracket portion;

wherein said support bracket portion provides a recessed area into which said first support arm is inserted at said third pivot axis.

If the Examiner has any questions, the Examiner is respectfully requested to telephone the undersigned Attorney.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
